SUMMARY

Motivated and enthusiastic HNDIT (Higher National Diploma in Information Technology) student at SLIATE Sammanthurai, having completed academic coursework and now seeking an internship opportunity in software development or IT services. Eager to apply theoretical knowledge to practical tasks, contribute to real-world projects, and gain hands-on experience in the IT industry. A quick learner with strong problem-solving skills, effective team collaboration, and a passion for continuous professional growth.

PROJECT

01.CarSaleWeb Application

Developedafull-featuredwebapplication using React for buying and selling vehicles.

- Implemented featuressuch asuserauthentication(login/register),dynamic car listings, search, and filter functionalities.
- Utilized React for frontend development, with HTML, CSS, and JavaScript for UI and logic.
- Integrated Firebase for backend services such as authentication and real-time database (if applicable).
- Focused on delivering a clean, intuitive interface and optimized performance across devices.

02.Car Rental Web Application

- Developed a responsive webapplication for renting vehicles with features for browsing, booking, and managing car rentals.
- Implemented user authentication (login/register) and dynamic car listings using HTML, CSS, and JavaScript.
- Created a clean and intuitive user interface to enhance the booking experience across all devices.
- Connected MongoDB for backend services such as user authentication, car data management, and booking storage.
- Focused on performance optimization, responsive design, and seamless client-side interactivity.
